

Press Release

Brown County Appraisal District (CAD) appraisers are currently working in and around the City of Brownwood and throughout the Brownwood School District boundaries. The CAD appraisers are updating the appraisal records and taking new pictures as they review each property.

The appraisers will be going door-to-door and into the backyards of some of the properties but not all. The majority of properties do not change from one year to the next, aside from getting older. Other properties may have changes such as remodels, additions, and new construction.

If you believe your property has problems the CAD is not aware of and would like an appraiser to review specific issues, please contact the appraisal district office.

Each appraiser will have proper appraisal district identification signs on their vehicles and personal CAD identification badges and vests. The police and Sheriff's departments have a listing of appraiser vehicles and license plate numbers. If you have any questions or concerns, please contact the appraisal district office at 325-643-5676. Also check out our website for valuable and helpful information at www.brown-cad.org
